ROMAIN CHIKIROU

IT STUDENT

JOB OBJECTIVE

As a second-year university student in computer science I would like to improve my skills in this field and discover the business world. I particularly appreciate the fields of software development and database development. I am trustworthy and appreciate the importance of responsibility.

EXPERIENCES

FULL STACK DEVELOPER @ IUT ANNECY

September 2018 – January 2019

Team work project (second year university project)

Designing a website for the IUT of Annecy that manage study pursuits. Accompanied by a team of four developers we carried out the analysis and design phase based on UML methods and we are currently developing the website with HTML, CSS, JAVASCRIPT, PHP and SQL Server technologies

TEMPORARY WORKER @ BONTAZ, GRAND FRAIS, ROUX

July 2018 – September 2018

Employed as warehouseman, shelf stocker and painter

It allowed me to develop my adaptability skills

EDUCATION & QUALIFICATIONS

DUT INFORMATIQUE

July 2019

IUT Annecy – Annecy-le-Vieux, France

(2 years university diploma in computer science)

I study subjects such as mathematics, software development, database administration, information systems management and others.

BACCALAUREAT S SVT / MATHS

June 2017

Saint Famille High School – La Roche-sur-Foron, France

(High school diploma specialized in biological science and mathematics)

MISCELLANEOUS

I practice classical guitar for 6 years.

I love travel and discover new things (United States, Spain, Algeria, …)

I like sports, especially running. I am preparing a half marathon
